There is certainly more to this than just sketching some Lines and baubles. It is form of relaxation and afterward you have a nice piece of art (well- maybe :-)

I like the fun new ideas this book. They are simple yet really interesting. Can't wait to do more. I just wish that this book had more too it.

Wonderful book, just wish there were a bit more instruction, and some more meat to the book.

Yes, the drawings are wonderful. Great ideas, but the book doesn't contain that many pages. Yes, I knew that when I bought it, I just thought there would be more drawings and ideas on the pages. That said, I'd probably buy it again and give it as a gift.

Love this book and it's inspiring me to use little embellishments in my acrylic paintings! Not just for Zentangling. Add a little fun to cards and envelopes... even your walls!

Beautiful book! I love the instructions. Like giving away a very special secret to create some beautiful additions to your own art. I especially love the idea for painting the doorway. Definitely planning that for my daughters room. The practice sheets are nice too. Scan them so you can reprint copies to practice on over and over! This may be a "booklet" to some but the pages are worth more than you might think. I would definitely get the one with worksheets too since you can use them over and over by copying. I think that is a nice addition. Her tips for coloring are very helpful too.

I am very disappointed . I expected a book, but this is a more like pamphlet to me. A book has only 34 pages and only few designs to offer .It is not worth what one pays for this a book, more like worth the half price.

Zendangles are one of my favorite things to do. It's relaxing and you can create a lot more than you

think you can. This book gives you the "how to's."
