## Customer Reviews

Lots of good information, but with the newest edition coming out next year, it's obvious that a fair amount of the prices (like those for the Gorilla tracking) have changed significantly.

As per usual, Lonely planet, very high quality.

lots of good info! great read.

I've used Lonely Planet guide books for years - and I love them. But I think this latest edition of LP East Africa was not researched properly. (I'm writing this review from Uganda after travelling in East Africa and using this guide book for 4 months.)
