Customer Reviews

One book was missing. I bought used but it did not say in the ad that one was missing. My son is enjoying the books and we have found a series he likes.

My 1st grader is an advanced reader and wanted chapter books. This is a great starter set to let him pick which series he might be interested in so far only the treehouse book. He might be more interested once he gets a bit older.

Super fast arrival, can't wait to read them to my students.

Great way too see author style. Nephew loved all the books but we narrowed down and continued to buy only three of five series.

Bought these for my daughter who is a teacher for reading intervention for grades Kindergarten to Sixth grade. These are great beginning reader books.

My 9 year old daughter loves to read and was so excited to get these for Christmas. They are what I expected.

Great Set to encourage reading in a less than enthusiastic 3rd. grader!

My now 5 year old is a bookworm and these books are a terrific sampler to open and expand his curiosity.
