Customer Reviews

A little disappointed. Although the recipes ideas are great if you're looking for crafts to do with a child.

I actually read and followed the direction and made soap. This book breaks down what you need by both showing you the ingredients , and making suggestions on how to make it better. This a fun way

to learn how to make soap and spend time with older children. Some of the things needed. A sharp knife, food coloring, a scale (kitchen) (my preference) , silicone molds (my preference), a measuring cup, essential oils (my preference), and plastic stirs. You will get detailed direction, as well as a complete guide to keep you safe, as well as having a great time. I hope you have as much fun as I do with this book.

Nice book. Has some really good ideas to try.

If you're into easy-to-make, decorative & fun soaps, this book is for you. I'm more of a natural, plain bar kind of soaper because my customers order that type more, so the only recipe I could use was the first one (the Eco Chic). However, if I'm ever feeling whimsical, I'll definitely refer to this book for cute ideas.

Disappointed in the recipes. Seemed like something a kid would make. Her books on cold pressed are better I just hate that she uses so much palm oil.

great ideas and easy to follow.

I love it
