Customer Reviews

For almost 80 years, Kaplan Test Prep (www.kaptest.com) has been helping students grow their knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey — incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan's private tutors and admissions consultants supplement those offerings with one-on-one support.

This book was super helpful. Loved the answer explanations and the lessons in the front of the book. Do all the practice tests for the best result! I used this for two weeks before the test and felt super confident going into it.

A couple months ago, I took a practice test from this book and got a 500. Three days ago, I took an official practice test and got a 640. I looked over what I did wrong and think I noticed an issue with my approach, and yesterday I took the test for real. I'll update this with my score once I get it. Around 25% of the questions in the practice tests are on things like poetic meters and other extremely obscure technical terms that aren't even on the actual test. On the actual test, 90% of the questions are the same stuff you'd see on the reading section of the SAT itself, and the other 10% just ask about things like metaphors and personification, not freaking iambic pentameters and heroic couplets. And for the other 75% of the practice test questions, many of the "correct" answers are mediocre interpretations and/or poorly worded.

I just took the ap English exam so I thought that I wouldn't have to do much review. And OMG this book. I took a diagnostic, and the questions are so frustratingly subjective, or too easy. I'm going to take the official test tomorrow so I will update my review. But so far this book makes the sat lit subject test seem like the DUMBEST thing in the world. I HATE THIS. I don't feel as though it's going to help me at all.

I used this book only for the practice tests, but I found that was all I needed. The test questions were comprehensive and very similar to the question types on the actual test, and the answer explanations were clear (unlike ambiguous explanations offered by some other practice books). Overall, a great purchase. Will definitely be going with Kaplan if I decide to take another subject.

This book is identical to the earlier edition - not sure why they are claiming a difference
