Customer Reviews

I began reading Sidney Sheldon's books over 20 years ago, don't know how I missed this one. As usual, Sheldon keeps you glued to the book, his research is great, his style is great and the plots are the best

Sidney Sheldon, an awesome author and a knight of suspense writing. I enjoyed the book and its plot. A great book

A good read with lots of twists and turns.

I purchased for a friend and she is a fan of the author. She is deployed

Was indeed a very good read..I finished this in a day..So you may imagine how interesting the book would have been. But I could predict the climax..It's all because I am an avid reader of novels in thriller/investigation genre..Author has done a great work in depicting Kat ,Paige , Honey and the county hospital...Loved this work!!!!!!

I had not read anything by Sidney Sheldon in years. When my online book club had a month to pick a Sheldon book you had not read, I picked this one. It was not too dated and was quick, engaging read.

Great read about three women starting their careers as doctors. Very well put together.

While I found this book to be a little stilted, I enjoyed it as I always do books by this author. It is slightly outdated, but that doesn't really have much impact on the story. Enjoy!
