Customer Reviews

Great book. Perfect for any rabbit lover.

It's fun

Excellent therapy for depression and anxiety. My partner spent hours staring at the pictures deciding what to color first, because they're beautiful.

my wife loves these books, and this one is no different. this one is not as much in depth with the detail, but still a very well done book.

Beautiful rabbits!

When I sat down to write this review ; as a rabbit lover I wanted a way to describe my level of disappointment when I received my order of this book. The adage that came to mind was; carrot or the stick ?I hoped this book would be a carrot even though the reviews I read don't give a lot of detail. My personal opinion is that I received the stick.What I read in the current description (which is current as of 5/6/17 the day I write this review.)- * 40 expertly illustrated rabbit designs in this coloring book....**professional quality designs from start to finish.*Here's what I found going through this book. Illustrations that don't at all look like professional level artists drew them and, don't appear to all be of rabbits either. Here's what I and another family member (who is an artist feel we found.)-14 rabbits-11 pugs- 10 unrecognizable animals- 2 Ardvarks- 2 Hippos- 1 ArmadilloHaving raised several domestic rabbits and rehabilitate many wild rabbits. I have never seen any whose heads and body look like too many of these illustrations look to giveit anything other than 1 star because that is as low as this rating system goes.The paper is basic thin copy paper all my markers bled through and all gel pens from my most expensive to cheapest bled through. Gel pens with a higher water ratio will warp your picture.For these reasons I didn't enjoy my experience with this coloring book and wouldn't recommend it to others.

super pretty. Girlfriend was very happy
