# How To Build Ponds And Waterfalls And Much More...: The Complete Guide

## Synopsis

How to Build Ponds and Waterfalls and Much More... was written with the consumer in mind: it's a show and tell presentation of everything needed to build spectacular water gardens. Jeffrey Reid proves that knowing the correct steps and using the right product for the job practically guarantees success. The methods shown in these chapters are proven, and have been taught to thousands of do-it-yourselfers. In an easy-to-read and easy-to-understand format, this book shows readers how to build ponds and waterfalls, as well as providing information about Koi fish, submersible pumps, water lilies, water features, water garden designs, UV lights, rock placement, filter systems, pond fish, marginal plants, preformed ponds, excavating, pond liners, plumbing, and landscaping. Adding a pond or waterfall to your landscape can be very rewarding. "How to Build Ponds and Waterfalls and Much More..." ensures it will also be successful.

## Customer Reviews

"How to Build Ponds and Waterfalls is a great book for those about to build their first water garden. The chapter on waterfall building is the best I have ever seen." -- Allan Sperling, Director, National Pond Society & Owner, Pondscapes magazine"How to Build Ponds and Waterfalls is the book the industry has been waiting for. This is exactly what the consumer wants. I received a sample copy [at] 10:00 am...at 1:00 pm that same day I placed an order for 1,000 copies to be delivered immediately." -- Kenny Holt, Owner, Bayhill Waterscape Supply"Adding a pond or waterfall to your landscape will be one of the most rewarding things you'll ever do. I fell in love with their significant

beauty about twelve years ago and I've never looked back. Water features, many of which are in this book, have brought me so much personal joy and pleasure. Knowing the correct steps and using the right product for the job practically guarantees success. This book will show and tell you everything that you need. The methods shown in these chapters are proven and have been taught to thousands of do-it-yourselfers." -- The Introduction; Jeffrey Reid

Jeffrey Reid is president of Tranquillity Ponds, Inc, the nation's largest pond specialty company, and is recognized by the National Pond Society as a Master of Ponds. Over the last decade Jeff has worked on more than 1,000 ponds and waterfalls, dedicating his life to teaching others to build these beautiful water features.

Bought for a friend who was looking for the book. Fit his needs.

The book is ok. I feel it was more like reading the cliff notes on how to build a pond. No detail in filtration techniques. The pictures are good and it will work but I feel there could have been more.

great book

Very nice product to show you set up and give you some ideas.

Interesting book. Seller said slight wear, but it looked brand new.

Received quickly. Item as described

its Ok

Jeff built my pond and he is truly a master at designing ponds and waterfalls. This book gives you ideas and tips but I don't think this is a "do it yourself" project. Like architecture, a pond should be designed to fit the landscape and the home. Get ideas from this and other sources, then get a pro.
