Customer Reviews

. . . the book has a great collection of trips . . . there are also plenty of wonderful trips and useful information for beginners as well. -- Hi Sierran, January/February 2001 Most popular cross-country guide book for Southern California. -- TrailSource.Com

This book is packed with 68 of the best cross-country ski tours in the Southern California mountains. Areas covered include Mt. Pinos, San Gabriels (Angeles National Forest), San Bernardinos (with Green Valley, Snow Valley, Big Bear, and San Gorgonio), San Jacintos, and San Diego mountains. For each tour you'll find: * Icons showing, at a glance, a trip's difficulty, terrain, and type * A map * Total trip distance, elevation gain, and loss * Estimated time to ski the trip * Directions to the trailhead * Easy to follow route descriptions, with points of interest A quick reference table summarizes all tours, allowing you to find a trip for your ability and interest. This book covers what to wear, what to carry, and ways to improve your skiing. Photographs, weather information, winter driving tips, local ski history, bibliography, and index complete the book. Author Daniel Anderson

has cross country skied the local Southern California mountains for over 20 years, and is a trip leader for the Sierra Club's Cross Country Ski Section. Frustrated by the lack of information on local skiing, he decided to write this book.

Thanks! Got out on skis for the 1st time in 20 years, both on Mt. Pinos and on highway 2. Was surprised - and pleased - to find the book was signed!

SKI TOURS IN SOUTHERN CALIFORNIA filled a major missing link for me - I found it a definitive and very readable book. Now I know a lot more places to go cross country skiing in Southern California. There are 68 trips in the book, complete with trail maps. The trails are in Los Angeles, San Bernardino, Riverside and San Diego Counties and within a one to three hour drive for most Southern Californians. I have now skied nine of the trips. Mr. Anderson's book makes it easy. I found the trail instructions, as well as the directions to the trailheads, clear and easy to follow. It is amazing, in this bastion of fun in the sun, that there are so many places with snow to play on and that it lasts so late into the spring. This book has a little something for everyone. The trips range from beginner to advance. But it is not just a compilation of ski trails. It includes photos, some cross country ski history, useful information for beginners, safety tips, skiing basics, ski gear information and even tips on skiing etiquette (like what you do with a sitz mark). It also has interesting information about the area where you are skiing. Do you know the world's largest lodgepole pine is in Southern California? I have now skied to it. And for those who cannot tolerate either cold or snow, there is even a trip to Kelso Dunes in the Mojave Desert! You ski on sand - a definite change of pace from your usual skiing venue. Ski Tours in Southern California should expand most skier's horizons.
