Customer Reviews

The map is all you'll ever need when driving through Crete. I Can't wait for our romantic mediterranean get-away:)))The west side of Crete is on one side of the map and the east side of the map is on the other side. Very details with all the roads on there.

The accuracy of the map was excellent. However, the quality of the paper was extremely poor. After only 12 days of carefully folding and unfolding the map, almost all of the creases had ripped open into large gaps. Maps used for touring should be made of quality material or even plasticized, as is becoming more common.

Too little detail on the cities. Great if all you want is a road map to circumnavigate the island though.

Excellent.

Especially helpful as streets in Crete are very difficult to see & read !

Excellent map

Map is pretty good, but I think big minus is the absence of central (downtown) areas of Chania, Agia Nicolas and other larger towns. On such large scale map there is plenty of room to put downtown areas in a way of inserts. That's why 4 stars.

It was a big help to have a map with such detail. I recommend having one for Crete. We also used a Garmin GPS but the map was handy.
