Cole has created an amazing world on modern Earth. Inside her world, lore creatures, such as vampire and werewolves, exist without alerting humans to their presence. Her characters consist of strong women who are anything but damsels in distress and sexy tortured men who often must overcome their past before they can accept their fated mate. Even though some of her characters are thousand-year-old immortals, they frequently make hilarious pop culture references. The romance (sex) between characters is hot and steamy and leaves you wanting more. But the best part is how each character overcomes trials to win their mates. No two characters are the same and

no two trials the couples endure are either. The detail she uses in the way she describes everything makes it easy to picture her sexy characters and fantastic world! Nothing in Cole's books is without purpose. Something she mentions in one book usually comes into play in the following book, or later. Each story blends perfectly with one another, leading up to a huge battle between two warring factions.

"He'd waited a millennium for a helpless parasite." **FINAL DECISION:** Fabulous story between a sexy werewolf and a half vampire/half Valkyrie. There is humor and paranormal adventure and pure sexiness and romance. Loved it. **THE STORY:** Lachlain Macrieve has been tortured by vampires for over a century. A werewolf and the leader of the Lykae Clan, Lachlan escapes from his torment when he scents his mate. Having search for her for centuries, her appearance gives him strength. When he discovers her, he is shocked and dismayed to discover that she is a vampire -- the mortal enemies of the Lykae. Emmaline Troy aka Emma the Timid, is half vampire and half Valkyrie. Young in immortal years, Emma fears pain and is highly protected by her adoptive family of Valkyrie. Her encounter with the wild Lachlan begins to transform Emma into the woman she was meant to be. **OPINION:** I can't believe that it took me so long to discover the Immortals After Dark series. Sexy, funny and exciting, this novel was a fast read because I couldn't put it down. Lachlan is very close to his beast side when he meets Emma. He is frightening and demanding and definitely the alpha male. Emma is fragile and innocent and doesn't believe in herself. Her progression throughout the book is amazing. By the time the ending of the book arrives, she has changed and changed Lachlan. I like that this book really approaches the issues of the prejudices, lack of understanding, and old enmity between the different immortals groups. The characters are strong and well-defined and each character in the story has a separate identity and I want to know more about each of them. For me the fact that I was satisfied with this book and yet want more is the sign of a great series. **WORTH MENTIONING:** Cole has created a very complex world and the overarching story is beginning to play out. **CONNECTED BOOKS:** A HUNGER LIKE NO OTHER is the second book in the Immortals After Dark series. It can be read as a standalone. **STAR RATING:** I give this book 4.5 stars.

Lachlan has been imprisoned and tortured in the catacombs under Paris for 150 years by vampires, but the day he scents his true mate somewhere above him, he finds the strength to break his bonds except the one binding his leg. His need to find her is so great that he breaks his own leg and leaves it behind, knowing that it will regenerate. When he finally finds her and discovers she is

vampire, her can't believe his misfortune. Vampires are mortal enemies of the Lykæ and he is the king of the Lukas. He quickly gets past his issues with Emma's lineage, but not so with Emma. She does not feel the same pull that he does and fears him more than anything. I love the way Emma becomes her own person in this story; she starts out timid and becomes a warrior. I also found Lachlan's devotion to his mate endearing. The world they live in is well laid out in the beginning so there is little confusion as the story progresses. Excellent story telling. Story: 5 Writing: 5 Characters: 5 Editing: 5 Heat index: 4.5

So I have bought and read everything Kresley Cole has ever written. She is a fantastic author and one of my absolute favourites. This book is a great start to the series (It's not my favourite, but it is still great). It is however, noticeably different on the Kindle format than the paperback. I used to own the hardcopy but a trans-continental move forced me to convert to Kindle. There are some discrepancies between the 2 copies. I honestly think the kindle version is better. I would seriously recommend getting this book, and you should just go ahead and buy all the others in the series at the same time because you are going to end up doing it, might as well buy them all at once!
