The book was missing pages 11-18 and 35-42. Looks like it was probably a publishing error. Of course, one of the patterns that was of interest to me was in the missing pages!!

Really a well written book

At last, a book for a beginner with clear directions. Happy!

The book was very simple to follow so nice to have all the large pictures and step by step instructions. I like quilts you can make with the Layer Cake pre cuts.

good book. wish it had more pattern but it is still a good book

Loved my quilt book great price great service I will buy from this seller and tell my quilting friends

I think the item is as described, but I didn't care for any of the patterns. Just a matter of personal preference, I think. And its probably not a good idea to buy a book like this without being able to see what's inside.

Terrific pattern book for large square of color. Easy to follow instruction with diagrams and colored pictures of the finished product.
