Great hits from my salad days written in a style that lets me play them without getting frustrated. I played piano for 20 years then spent 20 years totally away from the piano. These songs are arranged for an upper level beginner or first level intermediate and just what I needed to ease back into playing.

Good book of old songs and gives words as well which is a big bonus pleased with this item

Can't go wrong with this book for either piano or guitar or both. Large enough to read easily and has the guitar chords for easy learning. All great songs. Go buy it now!

Love the book. I have been searching for one of these for quite sometime and thoroughly enjoy playing and singing those "oldies" when music was rock and roll.

this book has a great selection of music! The only downside is that- as a teacher I need to make copies of the music, and the music goes so close to the edge and the book is so large that it's really difficult fitting everything on the same page. Otherwise, great book of music with a variety of classic hits.

songs are nice, but where are solos? Chords are nice and easy, but what I really need is solo. There ain't no Tab score. you just have written chords. If you can read piano score, maybe it's fine. But this is also for the guitarists, so this book is incomplete.

Ah, the Oldies, they make me feel young again. Sometimes I just go to my room, shut the door, sit in the rocker and listen to the Oldies, gotta love them!

This is a good music for baby boomer guitar players. Many recognizable melodies that we played in the "garage band" days. A very fun walk down memory lane. Good seller with quick shipping.
