Customer Reviews

A wonderful way to gain familiarity with Charlie Parker and the Bebop movement. A truly impressive achievement that they were able to transcribe these solos from the original recordings back before there were digital software programs to ease the process.

I recommend this for anyone who wants to improve there reading ability. I hope it bring you as much happiness as it has given me.

The author made a huge mistake by not using key signatures. The Eb and Bb versions of the book use key signatures. Why not the concert book? This is not Schoenberg. It's bebop. Bebop needs key signatures.

An essential jazz resource.

What's there to say. If interested in this omnibook then you already are aware of the majestic playing that is Charlie Parker.

Worth six stars if such a rating were possible. There is not a thing I don't like about this. I highly recommend this to anyone and everyone.
