"Don't leave home without STREETWISE" -- New York Times

Thanks

I travel to Munich and a few other European capitals a few times a year -- I recently bought a bunch of the Streetwise Maps. The Munich one is rather weak -- it contains just the city center and leaves one in the dark about the suburbs, airport, and surrounding towns. Also it fails to include much the business areas and Olympic Stadium. The small U-bahn and S-bahn map is also cropped in a way that excludes many important places, this map would be good only for the day tourist to the city center.

I was extremely disappointed in this map, which is incomplete, inadequate and even inaccurate in spots. If you're a casual tourist who is only spending a day in the Bavarian capital, then this map would probably fit your basic needs. But if you're planning on spending a week or more in the city, or if you want to see more than the city center, then avoid the map at all costs. The map shows only the inner city, with few streets shown beyond Briennerstrasse or the Isar. This is simply not acceptable, especially if you want to see anything of the city beyond Marienplatz. There is also some outdated information on the reverse, giving U Bahn stations on the wrong cross streets. This could present clear problems for travelers. I do not recommend this map to anyone unless you're restricting yourself to a small area in the pedestrian-only zone.

The people at Streetwise should be embarrassed to even sell this map. Its poor design is EXTREME. I was so shocked at its terrible quality because OTHER Streetwise maps have always been so useful. Not this one. Streetwise Munich is missing a majority of Munich, it doesn't include an U-Bahn or S-Bahn plan, and is so difficult to read that you'll be more confused than aided by it. It is a total failure. This map does not live up to the Streetwise name. I don't recommend this product at all.
