I absolutely love this book. I bought it for my twin boys when they were 2 in a zoo gift shop. They would ask me to read it over and over. They even memorized the pages. The part I loved most is how educational it is. My boys can answer questions about the animals based on what the book says. Example: When I ask them if an ostrich can fly, they tell me "No, but it can run fast!". This is actually the 2nd copy I buy of it because the 1st copy became so worn out in the last year that it was breaking. I was so excited when I came online to order it and realized there were several different books in this series. I ordered several different titles and I am saving them to put with the boys Christmas gifts. I think reading to children is so important, and it's really great to find books that are so colorful and grab their attention, and are so educational at the same time.

My three year old boy who was previously not interested in animals has just started showing interest. We got this book for him and he quickly learnt all of them. Like typical boys he doesn't really care for the story as much as he does for the cute illustrations which come with a little tidbit about each animal. I love that book is like a typical visit to the zoo, where you meet some animals in the morning with a good morning, some in the late afternoon with a good evening and end your visit to the zoo with a goodnight to some of animals!! Its a keeper!

Another great Good Night story for children to learn about the animals.

and such memories. He loves the book. Because he already has many other ones from this series, he knows how they are told. This is an almost 3 year old Dutch boy who is being raised bilingual and one of his english help comes from these Good Night books. Thank you for writing them.

The little man is OBSESSED with Goodnight Ocean, so I purchased this one to give myself a bit of a break. At almost 2, this is one book he doesn't linger on - he enjoys it, but really just wants to skim the pictures, turning pages too quickly to read. Still, nice book.

there is a duplicate page in the book...

What a pleasant surprise to receive this book really early! My granddaughter who is 5 takes zoo classes and this was the perfect book for her. I so appreciate the expediency in which this book was sent as I had an anxious child waiting. Thanks to this seller for such prompt service!

My daughter who is 20 months now, love this collection. She love this one particularly. If your kid loves animal, this is a book to get!
