My husband and I love to travel through the back roads of states when we are on vacation. This map book has the hollers and small lanes, as well as creek beds and other natural features to make the journey through American countryside enjoyable and safe. When talking with a local farmer in Frazier Holler, we learned that just a week before our trip the creek had been a torrent of rain water that overflowed creek, submerged the dirt road, and made travel impossible. We put a dot on our

map so we can remember this new found friend and share his story when we get home!

Lots of detail. I enjoy it. I'm no traveling expert by any means, but I can learn a lot around me, and also use a compass to get through the woods (don't try that alone, please). Everyone should have an Atlas of their region, somewhere, and maybe more down the road for the places you travel to. I do like this one, though.

This is the usual high quality state map that Delorme publishes. My only complaint is that some of the maps (page 33 and 34) are, not incorrect, but somewhat out of date. The state highway 840 which now connects I 24 and I 40 is only shown as complete up to just past I 65. I have not examined other places, so that is the only discrepancy I've noticed. Still Delorme publishes great state detailed maps!

My wife wanted to add to her set of Gazetteers. This is beneficial for finding water, especially creeks and branches. This beneficial for wilderness areas.

I have quite a collection of Delorme Atlas and Gazetteer products. All have proved the most valuable resource for travelling the back roads and "unchartered" territory my wife and I like to explore around the country. I was a Cartographer for twenty-one years and can verify this is a top quality and well-researched resource. And, the price is very reasonable. Top Rating!

I felt like description was insufficient in giving detail of level of detail provided...this is fine if you want very basic info but I was truly wanting something more street-level as backup to gps...not even sure what I did with this now...

Everything was fantastic. Thank you!

My husband always enjoys this atlas.
