Customer Reviews

JAN GERARDI has illustrated many books for children. Teenie Greenies are the first books she has both written and illustrated. She lives in New Jersey.

My 20 month old son loves this book and I love teaching him about gardening. He likes picking up the flaps and pointing to the pictures which are uncluttered and clear enough for him to pick out what the words are referring to.

My granddaughter loved the book. She likes to help in the veggie and flower gardens so this was a great book to share.

Just what I wanted. Great fun for all the kids, ages 6&8.

Cute little book for nieces!

Basically a picture book, but the kids enjoyed it

PERFECT!

Cute graphics. Very unimpressive text. Little to no relationship between the flaps and what are under them. Got it for a friend's child and I am too disappointed to give it to them

Bought this for my grandson along with the Learning Resources interactive toy garden. He loves this book!
