Customer Reviews

Ashley Evanson lives in San Francisco with her husband and two children.

These books are cute and the illustrations are fun. I wished the pictures were more obvious as to what color is referenced. There are many shades of orange and brown on the orange page, for instance. It's better for an older child, but I find it hard to teach color to a 17-month-old with this book.

I purchased all 4 of Ashley's new books. They are for a friend's baby shower. She requested books instead of cards for her baby shower. I chose to purchase the whole series. I hope these become bestsellers as they are beautiful books.

Love the illustrations. First one arrived with first page printed upside down...quality control at the printer probably should be a bit better. Very cute board book.

You will love these books in your collection. Such creative, colorful books! We love that they not only educate on the basics, but provide the added element of culture and character along with them. These are a must-buy!

Bought for our daughter as a "souvenir" when we went on a trip to NYC. It is a high quality board book with colorful illustrations!

Super cute NY book! I recently moved from Brooklyn to Denver so it was a nice gift for my niece!

My baby doesn't care for this book. It is a very *dry* story. No real context. I wouldn't recommend

Got this as part of a birthday present for a friend's little girl. I love it. So much so, that I bought another one to keep (for a future child's library? lol). I just love New York, and I think this is perfect not only for teaching colors, but also pointing out landmarks in the Big Apple and perhaps preparing a young child for an unforgettable trip to an amazing city. I hope the li'l bday girl enjoys this book as much as I do (but knowing her, she'll probably think it's a teething toy).
