Cruise Fan Bermuda Cruise

Synopsis

This book provides important practical and essential information to help you decide on how to maximize your cruise to Bermuda while making it both fun and unforgettable. My approach is to walk you through the Bermuda cruise experience from beginning to end (both in a topical manner and also by relating my experiences and observations on my Celebrity Summit cruise to Bermuda). This book is simple, personal and fun while at the same time being relevant, helpful and informative.

Customer Reviews

This is THEE worst travel book that I have ever read ! This would be great for the author's family Maybe. I have purchased travel books for over 40 years and have never been more disappointed. This would have been a Good though lengthy trip advisor review and nothing more . Author seems like a nice guy with a nice family that has cruised alot But I learned far more about cruising on line from cruise critic and from Fodor's book. We haven't cruised before and I thought this book would have provided new info. Once again - we have been travelling for 40 + years and have always purchased guides to gather info in both the US and out of the country. If there were no internet and no other travel book resources, then this book would have certainly be an asset. Don't spend your money ! Apologies to the author BUT no one should waste money on this Unless they have no internet or access to other Bermuda guides !

Everything I wanted and needed to know all in one place.

Perfect

I've been on several cruises. I thought I would learn more specifically about a cruise to Bermuda. I learned absolutely nothing from this book.

No new information at all
