## Customer Reviews

This is a complete rip-off. Once you get passed the table of contents, there are SIX (yes, SIX) pages of information so basic, you probably already know it. It opens with, "It is impossible to cover the subject of Amateur Radio Satellite Communications fully." So they decided to just give a short list of web links, instead. And, you get to pay them \$2.99 for far fewer web links than you can Google. Definitely pass this one by.

A basic primer for someone completely new to Amateur Sats
