The LEGO Animation Book: Make Your Own LEGO Movies!

Synopsis

Have you ever wondered what your LEGO creations would look like on the big screen? The LEGO Animation Book will show you how to bring your models to life with stop-motion animation—no experience required! Follow step-by-step instructions to make your first animation, and then explore the entire filmmaking process, from storyboards to post-production. Along the way, you'll learn how to:

- Create special effects like explosions and flying minifigures
- Convey action and emotion with your minifigure actors
- Design sets for animation—make three buildings look like an entire city!
- Light, frame, and capture consistent photos
- Add detail and scope to your films by building in different scales
- Build camera dollies and rigs out of LEGO bricks
- Choose cameras, software, and other essential animation tools

Dive into the world of animation and discover a whole new way to play! For ages 10+

David Pagano is a LEGO animator and writer and the founder of Paganomation, a NY-based production studio. His work has appeared everywhere from BrickJournal to the Wall Street Journal. David Pickett is the LEGO filmmaker behind BRICK 101 and Nightly News at Nine. Together, they run the LEGO animation blog The Set Bump.

Excellent instructional on stop-motion. Easy enough that my nine year old can follow along. Advanced enough that I am having a great time with it. Their application recommendation (iOS, Android, Windows) is not only free, it rocks.

This is a great book for children and adults alike! Lots of color pictures and detailed instructions. The last chapters are for the more experience directors. With practice and dedication you too can be an expert!!!! I am glad I got this book because I can apply all this tricks to my other stop motion toys!!! Great job!!

A great book on how to create Lego Animation. Lots of examples (it even has a link to a movie made for the book). Excellent job and a great reference book to keep on the shelf.

I bought this for my son because his name was mentioned in it as an animator.

I saw the author of this book on Fox news and then bought it for my son. The instructions were very clear for a 10 yr old. My son made his 1st video and posted it on YouTube.

10-year-old son loves it very much. 8-year-old son, not as much.

I have many lego stop animation books. I wish I had this one when I first started. It's filled with lots of great information, tips and plenty of pictures!

Excellent book! The perfect gift for any LEGO lover. The instructions are clear and the photos are excellent. Highly recommended!
