## Customer Reviews

Please keep in mind this book does not include the music for Lindsey's original songs, but rather renditions of some of her favorite songs. I was unaware of this because there was very little information about the book when I preordered it. My daughter still loves it though.

I wish they sold/printed the sheet music for the accompanist rather than on a CD. CD is good for practice but if wanted to perform for a recital, live accompanist would be better than playing with a CD.

I bought this for my daughter and she LOVES it! She's an intermediate to advanced student and

found it a little challenging but a lot of fun!

Bought this for my daughter and she started playing it as soon as it came to the door. Product is as described. She wants more like this from Lindsey.

My daughter is a 4th year violin student and Lindsey Stirling has been a great inspiration to her. She is currently learning one of the songs in this book and is absolutely loving it. Very easy to understand. Highly recommended!

This Book CD combo is a great way to try and mimic the artist. I think that the difficulties of the songs is measurable especially for the early learners, but having the book will make things easier for sure. My son enjoys this very much..

Bought to attempt, but i am not at a high enough level of playing to use yet. Will hold onto and bring back out when i am more learned.

I wanted to play something from her collection. I have found that I will probably take a lifetime to master what is in this book. The CD is so beautiful to listen to. It has slow song and fast fun ones. I hope she does another one some time.
