Customer Reviews

This was the only thing I use to study for my LPN and I passed!!!! with a minimum of 85 questions I only did the practice questions in the back of the chapter. I did not read the whole book and I did a couple of the online practice test through the book. I studied for a week and a half and prayed like crazy to God !!! So in a nut shell I really liked this book and would recommend it to everyone.

I've been out of school for over a year+ I read this book front to back and I passed ! This book really gets the important topics across and makes you remember it!

Was recommended to get this book by a pharmacology professor and I love it! Has good straightforward content, questions with explanations and much more.

I passed my pn-NCLEX with the help of this book. Its like all Nursing material u learned in one made simple. I'm so glad I purchased this book. I wish I soul of had it during nursing school. I recommend getting it asap! During nursing school is even better. The material is just like the classroom material. Also the price I paid for the book was awesome!

Their questions were so much harder than the Nclex which prepared me very well. I did 100 questions a day I did like 200/400 of their select all that apply. I did this with a nclex pn blue print

and passed with minimum questions.

I could'nt be happier!!! Was delivered on time, in perfect condition, and the online resources and material in the book itself, it absolutely amazing!!! I highly recommend!!!!
