Chalk Painting Furniture Made Easy: The Ultimate Beginners Guide To Chalk Painting Furniture!

Synopsis

Chalk Painting Furniture Made Easy (FREE BONUS INCLUDED)The Ultimate Beginners Guide To Chalk Painting Furniture!If you have not heard about Chalk painting of furniture, here is the right point to know. First of all, everyone is talking about this type of painting for many good reasons, secondly, this type of paint goes smooth on furniture and also dries quickly. The paint can be easily sanded to distress the piece of furniture, in order to provide a much deeper and well-worn appearance. Aside from furniture Chalk paint can provide that exceptional antique look and feel you desire, and it requires little time and effort to make. This book has been written to guide you through the process of making your own Chalk paint and then applying the paint in the proper manner, with the use of the right tools, to ensure that you achieve a perfect painting result. Some of the things you will learn from this book are:How to prepare and make your own Chalk painting, to the desired thickness and composition,How to prepare your furniture for chalk painting,Types of Chalk paintings (for instance; basic one colour, and classic style smooth finishing)Colour washing, ideal chalk pain recipe and the necessary steps to take to complete your furniture painting.Download your copy of Chalk Painting Furniture Made Easy by scrolling up and clicking "Buy Now With 1-Click" button.

Customer Reviews

This book contains many pointers to help you get started, but it is by no means complete. I think it is as advertised, a good beginner's guide

This is not a book, it's 30 pages of redundancy and bad grammar. Hard to read and understand. I'm not sure the author's first language is English. There are no pictures or examples to show the different techniques he is trying to explain.

If you want to know about the chalk painting of furniture then you should try and read this book which explains this process in an easy manner which is easy to understand.

it was easy to read and follow,

16 page double sided pamphlet. No photos. what a total rip off.

Do not waste your money on this "so called" book. It is written poorly and might as well be an e-book it has no new info that you can't read on the web...what a waste of paper!

Anybody out there who wants to learn chalk painting and paint their furniture must read this guide. Very comprehensive and thoroughly guide you to finish the job. Made me able to finish some pretty good paints.

Misspelled and misused words made this a difficult read. In the first chapter alone, used 'POP' in recipe that used no plaster. Repeatedly wrote 'quartz' of paint. The artist who developed modern chalk paint is Annie Sloan, not Slohan. I could not finish this book.
