Invisible Prey (The Prey Series Book 17)

Synopsis

“A crackling addition to [the] Prey series” (Entertainment Weekly) from #1 New York Times bestselling author John Sandford. In a wealthy Minneapolis neighborhood, two elderly women are bludgeoned to death. They are apparent victims of a random robbery, though nothing of value appears to have been stolen. But when Lucas Davenport looks deeper, he fears that the victims weren’t so random, and the items stolen were far from invaluable. As a pattern emerges it leads Lucas to a place certainly not where he expected. Which is too bad, because the killers are expecting him. And that’s only the first surprise.

Customer Reviews

I am slowly working my way to the entire series which I started years ago in the middle when I bought a paperback in the airport. Kindle makes it easy to find and manage a series by an author. Strong language so not for teenagers and below. They made only one of his books into a TV movie Certain Prey with Mark Harmon who is too "clean" to play Lucas Davenport. The killers are always

violent - must be the Minnesota winters - and remind me of the movie Fargo. Sanford doesn't have the flair of James Lee Burke but he is more prolific and always a good read even though he reveals the murderer(s) mid-way in the books. Now it's just a question of how Davenport will figure it out and what tricks he will use.

Mr. Sanford never disappoints. So glad I bought the kindle so I am finally able to go back and catch up on the series I have so enjoyed for most of my adult life. Thank you for providing intellectual reading that both young adults and mature adults alike can enjoy. There is only one small piece that bothered me in the book and I will be going back to previous books to see if I read it wrong before mentioning it further.... maybe in my next review. Anyway, please, take the time to enjoy this and all the John Sanford books out there. BAS

I'm trying to take my time reading through the Prey series, but I'm having trouble staying away from the next installment. Awesome good and bad characters in exciting stories. I don't want to go through all the novels too quickly. What author would I read next?

Not the most exciting book for me, I think I like it better when the author keeps the identity of the killer secret and throws some red herrings your way. Or, if the killer is known, it's a really interesting character (Clara Rinker, Louis Vullion). In this book, we know who the killer(s) are pretty early, and they aren't even remotely interesting... just some greedy sociopaths who mostly kill for practical reasons.

I really enjoyed the content of this book. It was quite different than the usual detective/mystery story. Another reason I really liked it was he finally introduced that "f_____ flowers!" I think I'm gonna love that character! Wasn't too impressed by the ending, for me it just didn't have that Sanford "KICK!" Maybe next time!

If you really like suspense and detective stories you will love John Sanford. He is an terrific story teller and knows how to keep a reader interested. Difficult to just stop reading once you have started. I had to finally just tell myself I would stop at the end of a chapter and not stay up until the wee hours of the morning!!! guarantee that the Prey series is so much fun to read. I actually had to go back to the first one and read all 16 in order and I am not sorry that I did!

John Sanford has a great way pulling into a story . Lucas Davenport has evolved and makes reading about him and his family fun.

Going thru one by one of the Prey books. This one was interesting, but not the best. Love that f***ing Flowers tho!
