Jumbo Brand Peanut Butter Jars: History And Price Guide

Synopsis

Jumbo Brand peanut butter Jars, by Liz LaMac Revised. In this 66 page revised and enlarged book you will read about the charming, deep ribbed, elephant embossed, Jumbo Brand, peanut butter jars, from the ity, bitty jars of 3 ounces to the 2 pound jars. Read how they got started, where they were made, who made them, and who wrote the trite little slogans on the bottom of many of them. And for the first time you will see a clear picture of each size jar, and more pictures. You will find at least 30 pictures and for the first time you will have a price guide. You will know how much each jar is worth. Collecting will be more fun than ever. And best of all there is a clear picture of each size jar that was made by the Frank Tea and Spice Co. There is also a Quick Reference list for jumbo Brand jars in the back of the book. You can see at a glance the Jars that are out there, waiting to be collected.

I was basically disappointed in this book, which BTW should be a booklet. It is only 32 pages. The only decent picture is on the cover. The other pictures (in the kindle edition) are small and terrible. You can't tell much of anything by the pictures. The text refers to pictures on page 23, let's say, but the pages are not numbered. And I'm not sure all the pictures made the book. ?? Some of the descriptions are in great detail, but the years of production are usually absent. Some are listed as "older". Older than what? Having been written by someone who is an "expert" on Jumbo peanut butter jars, it leaves something to be desired.

Good information about the various styles of jars, but not a detailed history that would allow you to date them. Also too much information about the author included in the book. Didn't want to know the life history of the author, just the jars.

I am a really big "thrifter". I have come across a few of these kinds of jars before, but passed them by. Big mistake! I now know what to do when I find the jars again.

Very pleased with book.

Excellent
