Marine Science Experiments (Facts On File Science Experiments)

Synopsis

The oceans directly influence climate and weather, affecting our daily lives in many ways. Marine science includes all of the sciences related to the sea, including marine biology and oceanography. Providing teachers with new and innovative classroom investigations in a clear and accessible format, Marine Science Experiments presents 20 experiments in this branch of science, on such topics as plankton, salinity, marine sediments, whales, and ocean regions. Experiments are supported by engaging, full-color figures and line illustrations to help hold students' attention while explaining important marine science topics.

Book Information

Series: Facts on File Science Experiments

Hardcover: 154 pages

Publisher: Facts on File; 1 edition (July 1, 2010)

Language: English

ISBN-10: 0816081689

ISBN-13: 978-0816081684

Product Dimensions: 8.5 x 0.6 x 11 inches

Shipping Weight: 1.7 pounds (View shipping rates and policies)

Best Sellers Rank: #387,089 in Books (See Top 100 in Books) #25 in [Books > Teens > Education & Reference > Science & Technology > Experiments & Projects](#) #83 in [Books > Teens > Education & Reference > Reference](#) #248 in [Books > Children's Books > Science, Nature & How It Works > Experiments & Projects](#)

Age Range: 12 - 15 years

Grade Level: 7 - 10

Customer Reviews

We reviewed Space and Astronomy Experiments in our January 1 & 15, 2010, issue, and this additional volume in the Facts On File Experiments series is similar. A one-sentence overview of each investigation (20 per volume) is followed by an introduction, time requirements, materials list, procedures, sample data table, analysis questions, discussions of the scientific principles involved, their connection to real life, and further reading. Color diagrams and drawings illustrate each experiment. The series is aligned with the National Science Education Standards. Grades 6-12.

--Mary Ellen Quinn
