Divine Madness (Cherub Book 5)

Synopsis

CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. When CHERUB uncovers a link between eco-terrorist group Help Earth and a wealthy religious cult known as The Survivors, James is sent to their isolated outback headquarters on an infiltration mission. It's a thousand kilometers to the closest town, and James is under massive pressure from the cult's brainwashing techniques. This time he's not just fighting terrorists.... He's got to battle for his own mind.

Customer Reviews

I have never picked up a book series and have been so amazed by words on paper. Robert Muchamore has a serious skill for making you feel as if you are standing right in the middle of these stories. I originally borrowed the book series from my cousin but they were just so good I had to buy

my own set as I couldn't stop reading them. Divine Madness is another Robert Muchamore book that you will plough through without even realising how much you have read and at that stage you will realise you're done. Stop reading this review and go buy it!!!! This book was probably my least favourite out of the series but it's still a good read

As this is the third book of the series already it has gotten predictable, and very alike to the other books in the series. I was disappointed as I had enjoyed the others so much. The best parts in the book are James' personal life which are extremely short and that is a shame. I wish I had not read this book so that my good image of the series would remain.

I found this book very exciting and it kept me reading 24/7. I strongly recommend it to anyone who likes espionage books as well as action

Great series!

Divine Madness is a great addition to the Cherub series. Don't get me wrong - these books are not for the sheltered teen - they cover some gritty bits of reality and include feelings and responses that some young readers may take issue with. However, Divine Madness is the sort of book that offers total engagement in the storyline and some quiet time as the teen male in my life disappeared into it with an enjoyment level normally reserved for food! ;)

My son is reading this series that he describes as action packed & suspenseful. I was able to get 2 of the books from the series gently used & much less expensive than buying new. I was very satisfied with our purchase, fast shipping and book was in good shape just as described.

My son loves this series.

That's it. Son loves the Cherub series. It is well written and both my 10 and 15 year old kids love reading it. We will continue to march on with the series....
