Prepper: Complete Prepper's Survival Guide And Self Sufficient Living

Synopsis

(insert headline here) Read on your PC, Mac, smart phone, tablet or Kindle device. You are about to discover actionable information on how best to prep for ultimate survival. Disasters have become a common occurrence in the world that we live in. Today, we have tornados, the following day, earthquakes, tsunami, terrorist attacks, and political instability among many other things. This has made being prepared to cease from being an option and is now a necessity. Everyone is becoming concerned about his or her safety just in case disaster strikes. The question that people are asking themselves is whether their housing is safe enough; will they have enough food and water? Will they have enough clothing to protect themselves from the harsh weather, just in case there will be any? This is the reason why it is necessary to learn about prepping. This book will help you understand more about prepping, surviving in the harshest conditions and more on self-sufficient living. Here Is A Preview Of What You'll Learn... Acquiring Supplies Learning Requisite Skills Building A Community Survival Skills Pantry Planning And Prepping Survival Kits Self Sufficient Living Traps And Snares Finding Food And Water in the Wild Much, much more! Customer Reviews

This book seems thrown together with common Internet searches and has down right wrong Info! I wouldn't recommend this book to anyone you can check out my other reviews I don't normally write bad ones but this book is full of dangerous ideas and flat out wrong information.

Most information was superficial and lacked diagrams, illustrations, or step-by-step instructions for the novice. I would not have paid for it.

This book covered prepping basics. I liked the part of taking care of pets. Top many people forget about their pets in a emergency.

This is a very simple beginner's guide to prepping. It has useful information, but not by any means complete information. It's a great place to start your quest for emergency preparation.

VERY BASIC info for beginners only

Great book read it and loved all the interesting detailed pages, of basic woods survival from catching wildlife to wich plants are safe to eat.

The content provides some good basic information but the detail I felt we lacking. Wouldn't recommend this publisher, very poorly edited.

Thought it was very interesting - short, sweet & to the point on a few basics. I like to read when I am board
