Reap The Shadows (Steel & Stone Book 4)

Synopsis

Piper is feeling a bit overwhelmed. With Seiya and Lyre missing, Ash recovering from near fatal injuries, and the Gaians picking fights with daemons all over the city, a girl can't help but think she might be in over her head. And this time, she's on her own. Before she even has a chance to investigate the Gaians' new stockpile of mysterious, high-tech weaponry, an old enemy ambushes her: Samael's henchman Raum. He wants Ash's help and won't take "get lost" for an answer. She doesn't know if she can trust Raum, but even more than that, she can't trust herself with Ash. Sooner or later he'll catch up to her, and she fears she won't be able to walk away from him a second time. Despite her feelings, it will take their combined strength to face a frightening discovery about the Gaians. She and Ash begin to realize that the daemon war is coming to Earth, and they might be the only ones who can stop it--if it's not already too late.

Customer Reviews

*I received an ARC in exchange for an honest review*Piper is my girl, and she's back with more badassery than ever in this latest installment of the Steel and Stone series!!!Trying to get a handle on her burgeoning magic, Piper keeps fighting the good fight and struggles with what do regarding Ash. As war brews between Daemons and Haemons, with Humans caught in the crossfire, Piper is engaged in a battle between her humanity and her inner daemon. Which will prevail? Piper the Protector, or Piper the Predator?*side bar - I think they both kind of rock*The action in Reap the Shadows was amazingly well choreographed, and everything I've come to expect from Annette Marie. The story moved in an effortlessly fluid manner. It always amazes me that in this world constructed entirely from imagination I'm never left feeling lost as a reader. There are no holes in Marie's flawless writing.Piper's tale is full of action and suspense, but also bursting with emotional turmoil - both good and bad. She's so totally relatable that you can't help but cheer at her successes, and feel the sting when her heart breaks.As for Ash, well let's just say you will not be disappointed.*gives Cheshire Cat grin*Steel and Stone has quickly moved into a top spot on my Favorite Series list, and I'm breathlessly anticipating the conclusion in Unleash the Storm.If you haven't jumped on this incredible series yet, you are seriously robbing yourself. Grab. It. Now!!!

As with the rest of this series, Reap the Shadows is captivating. Awe inspiring descriptions make you feel like you are stepping into the daemon worlds.Once again I was sucked in from the very beginning and hated anything that forced me to put the book down. Piper is a fantastic main character who has plenty to stress about but never comes off as whiny as some heroine's do.The characters' relationships are not storybook perfect, which makes them fantastically realistic. I did not want the book to end and it is torture to know I will have to wait for book 5.This entire series is a definite must read.

My favorite book in the series thus far! WARNING: If you haven't read the first three books my review will be slightly spoiler-ish.Book four picks up 10 days after the last book. Ash is still in the Overworld recovering from his wounds. Piper is still searching for Lyre and Seiya with no luck. She is in hiding with her father and the other outcast Consuls. She's still adjusting to her newfound magic

and is trying to stop thinking about Ash. Once again, another pulse pounding story. So addicting! The next and final book will not be released for four weeks! The waiting is AGONY! The good news is that this book doesn't leave the story on the edge of a cliff hanger. It's a satisfying ending leading to our final book which I hope wraps up our beloved characters story. There is a novella 3.5 Feed the Flames that I skipped in favor of devouring this story as quickly as possible. I don't feel like I really missed anything pertinent to the series but I have a feeling it gives insight to Lyre and Seiya's characters. I plan to go back and read it.

It has been a great journey so far. I have been reading day and night coz I fell in love with the slow build of characters and anticipation. Piper is such a smart and intelligent girl unlike so many other heroines, she processes everything fast and makes decisions quickly. I have read so many books where the lead characters are shown super strong and powerful but emotionally so confused and half the books are filled with -"oh my god, what to do. I feel this. I don't feel this and blah.." I mostly just skip all that inner rant of emotions but in this book, she thinks, she analyses and she concludes. Damn, that's a fresh change. I am the kind of reader who forgets everything until the series is done and I was sooo much looking forward to reach the 5th book but fortunately for me and unfortunately for the author, I read the reviews of the 5th book. So now, I honestly don't care to read it. I would rather not read the sad ending keep a good feeling in my heart about the characters than reading and feeling disappointed and sad about the not-so-happy ending. Well, dear Marie, I loved your writing and thought process but I am a happy ending sucker. Books are my escape from my routine and real life and I prefer a happy escape not a realistic one...duh. So, Thank you for the series but with all due respect, No Thanks for the 5th book.

So I took off work today to read this and started reading it between 12:05-12:10 am. I kept refreshing my page until I could download it. Needless to say I read all through the night. I absolutely LOVED this book. I'm going to read it again and I'll be buying the audible version once it's released as I own all the previous audible versions as well. I am thoroughly excited about book five early next year and cannot wait for that installment. I am sad however to hear it will be the final book as I don't want to lose Piper and Ash in my future reading endeavors. I know the story has to end somewhere but I really hope Annette will consider stretching this series out a bit further. I have read hundreds of books and very few series have touched me in the way this one has. I know many other fans of the series feel the same way and would implore the author to at least consider a few more books. Anyway thank you Annette Marie for this deeply satisfying reading experience and I look forward to

what's coming next.
