Pediatric Nursing Procedures

Synopsis

Absorb the vital principles, interventions, and strategies of family-centered pediatric care, with the newly updated *Pediatric Nursing Procedures*, Fourth edition. Emphasizing interdisciplinary teamwork, this irreplaceable how-to offers clear direction on more than 120 pediatric procedures, all based on current research and international best practices. All procedures address community care settings, with a focus on school and home nursing issues. This is the perfect clinical guidebook for nurses delivering care to children in any health care setting, and a vital text for all nursing students.

• This step-by-step guide covers a broad range of pediatric procedures . . . ? NEW updated content in all chapters, based on current clinical evidence, best practices, and nursing standards ? NEW chapters on pediatric health assessment; intravascular therapy peripheral lock and flush; and palliative care ? NEW Unexpected Situations scenarios and recommendations ? NEW photos and diagrams ? Coverage of vital topics, including:

- o Key elements of family-centered care and the strategies that strengthen it
- o Impact of developmental milestones on patient and family education
- o A clear-cut, detailed how-to on common procedures, such as:

- ? Medication administration
- ? Blood drawing
- ? Cardiopulmonary resuscitation
- ? Child abuse reporting and documentation
- ? Care of the newborn
- ? Fluid and nutritional interventions
- ? Pharmacologic interventions
- ? Pain management
- ? Hemodynamic monitoring
- ? Immunizations
- ? Parenteral nutrition and IV fat emulsion infusion
- ? Handling equipment
- ? Wound care, and more
