My kids love this book. Nice having several in one book!

So disappointed. Received book incorrectly published where pages were bound in incorrect order. Unable to read it since goes from pages in the 20s to pages in the 70s. Was a gift and unfortunately too late to return.

My 3 year old son loves the Little Critter series and these ones are no different! I was nervous because I bought the book used but in very good condition and was pleasantly surprised when it came to my door in what looked like new condition. Perfect for story time! I love the story about health. After reading it my little man got up asked for a bowl of grapes and wanted to go back outside to run and play :-)

My boys love this compilation of Critter stories. They enjoy finding and pointing out the spider in all the pictures.

My kids were really into these books so we bought some. Much cheaper to buy the collections like this. They really enjoyed the stories, and I'm thinking my 6 year old could probably read them herself. I love these books.

If you are familiar with the Little Critter books from the 80's then you should consider this book. It is a great collection with colored pictures throughout. My granddaughter loves it.

My son had loved Mercer Meyer, and now my Grandson does too!!! The illustrations are busy enough, and the "lessons" are simple. Perhaps looking for the spider on each page is another challenge, but I ended up reading the ENTIRE book to him!!!!

I got this for both my 7 year old grand daughter and my 6 year old nephew. They are both animal lovers and these Little Critter books helped to get them to read more. I had them mailed to the house and the kids love having a surprise sent just to them.
