I am excited to review this book because of the direct impact it had on my situation. I am a working mom which is challenging in it's own right but to make it even more so, I decided to go into the construction industry. I had the attitude Kate talks about in her book that "they" will see how hard I work and reward me, or I didnt want "them" to think I was greedy or not like me so I didnt ASK for a lot. I have been working in this field for the past 20 years with that attitude. I had read all of the staple books, "How to Win Friends and Influence People", "Nice Girls Dont Get the Corner Office", "Lean In", Dale Carnegie and Stephen Covey books, and many many more. Some of the things I read made sense and some I even applied. After reading Kate's book I immediately went out and bought 3 more copies, one for each niece and one for my daughter in law. While I really hate to

sound like a stalker fan, I have to admit that I have been listening to Kate's book on audio every morning, on my commute, for the past month. It is giving me insight on a daily basis and I am making some rewarding changes to my thinking! Love, love, love it! In fact I recently told my mom that no other book as had this big of an impact on me since the Bible (dramatic I know).

HONESTY IS HER BEST POLICY! Becoming a recent young professional, I turn to Kate's book time and time again. Only to find validation for my own experiences and tips on how to navigate new ones. Laced with grace, professionalism, and prose, I highly recommend this book to any woman (or man!) in the working world.

I just finished the book! I wish it was I had this when I started my career. The book could be used as a resource manual and does provide positive inspiration .I actually gave it to my son who is 23 and doing well in hr for a Fortune 500 company fesh outof college. So much advice for career !!
