Price Stern Sloan publishes fun and engaging books in a variety of formats, including board books, doodle books, activity books, novelty titles, and of course, the classic Mad Libs.

When I do MadLibs with my class (elementary school special ed), I often have to skip some stories because they are too complex. I also have to paraphrase the harder words in the regular versions of MadLibs. This has easier language, so I always get this book for my class to use in October. I don't like the way that symbols are used instead of the words "verb," "noun," etc, and I wish that it included adverbs. I'm also not a fan of the "misc" category, which actually seems to be just more nouns. I use MadLibs to reinforce parts of speech, so I have to add that back in to make this more useful. All in all, though, it's a great tool and fun game.

My six year old grandson finds these hilarious. When we do them together it helps him use a bigger vocabulary.

Mad Libs, guaranteed to have your kids howling with laughter. Mad Libs Junior is geared to 1st-3rd graders, and is a great way to start doing Mad Libs with them.

Silly, solid, fun and learning.

My 5 year old son loves doing this. It's educational too to teach kids what a noun, verb, adverb, adjective is.

My neice loved it!!

I always have a family Halloween party and am in search of new games/activities. The ages of my family range from newborn to 70s, and Mad Libs proved to be fun for everyone! is a great place to shop!

Great for school parties, and kids entertainment.
