ISBN-13: 978-0804125529

Product Dimensions: 8.4 x 1.9 x 10.8 inches

Shipping Weight: 2.8 pounds (View shipping rates and policies)

Average Customer Review: 4.4 out of 5 stars 38 customer reviews

Best Sellers Rank: #461,110 in Books (See Top 100 in Books) #117 in Books > Education & Teaching > Higher & Continuing Education > Test Preparation > ACT #277 in Books > Education & Teaching > Higher & Continuing Education > College Guides #303 in Books > Education & Teaching > Higher & Continuing Education > Test Preparation > SAT

Customer Reviews

The book includes four paper tests and four online tests. Of course you have to enter all sorts of personal information and they will be bothering my son forever now that they have him in their database. What's worse is to access the four tests your browser has to pass their minimum requirements and your browser better not be Chrome. Edge doesn't seem to work either. Firefox couldn't pass the test. I thought I had Internet Explorer passing the 8-9 different criteria but now I have to go into the Java Control Panel to do a bunch of monkeying around. Their site points you to Java 7 which isn't even available anymore. They have a massive problem on their hands because their website is hopelessly screwed up. ****It's absolutely ridiculous.**** So, if you're buying this book for the eight tests, keep in mind that there's **ONLY FOUR TESTS IN THE BOOK**. After doing everything possible to get the site to work and getting all green checkmarks and doing everything listed below it still will not allow me to actually use the online tests. Horrendous and extremely disappointing. BTW, here are the Java Control Panel recommendations for Windows in case you need them: Once Java has been installed, adjust the following setting in the Java Control Panel.

1. Close all web browsers.
2. Open the Java Control Panel : Tap the Windows key on your keyboard (between the Ctrl and Alt keys), then type "Java Control Panel" (without quotes) and hit Enter. The Java Control Panel window will open.
3. Select the "Security" tab.
4. Click the "Edit Site List" button, under the Exception Site List heading.
5. Click the "Add" button in the Exception Site List window.
6. a. Enter their URL (without quotes). b. Enter another URL (without quotes).
7. Click the "Add" button again. The following prompt will appear: "Including an HTTP Location on the Exception Site List is considered a security risk"
8. Click "Continue".
9. If you are enrolled in a LiveOnline course, repeat steps 6 - 8, but this time add another URL to the list.
10. Click "OK" to close the Exception Site List window.
11. Click "OK" to close the Java Control Panel.
12. Verify that all browser windows are closed, then restart your browser. In most cases, no additional configuration will be necessary on Windows systems. However, if you are unable to find the "Exception Site List" on the Security tab in the Java Control Panel, it is likely that an earlier version of Java is still present on your system and interfering with the most recent version. To correct this:

1. Close all web browsers.
2. Tap the Windows key on your keyboard (between the Ctrl and Alt keys), then type "appwiz.cpl" (without quotes) and hit Enter. The "Programs and Features" (Uninstall a program) window will open.
3. For each version of Java listed in the Programs and Features window, right-click on the program name and select "Uninstall", then follow the on screen prompts to complete the removal of that version of Java. Repeat until there are no version of Java listed in the Programs and Features window.
4. Reinstall and configure the latest version of Java as described

above.

Perfect for review and making sure I am covering all the basics needed for my kids high school homeschool courses. Excellent condition and reasonable price point compared to other mass book retailers.

My teens are using this book to prepare for the ACT. We have no complaints. The book arrived as described. We are using the print versions of the practice tests at the moment. We have not tried the CD Rom versions. I expect to be equally satisfied with them once we try them.

great book for studying and the practice tests are very helpful. Ps: the best thing to study for the act is just to practice taking tests again and again and again. trust me.

Great for the practice tests within it. However, most of the material is the same as the previous years book.

It's ok. It doesn't really have amazing techniques and I think the practice tests are harder than the normal one, but it's still ok.

Good information and layout

I got this, the Kaplan book, and a math specific book to prep for the ACT - this was my daughter's favorite. She used all three from start to finish, but this book gave her some good strategies and was written well enough to hold her interest from start to finish. She found the others dry and sterile.
