The Book Of Enoch: The Complete Collection.: Translated With Commentary By R.H. Charles (Timeless Wisdom Collection 12712)

Synopsis

One of the most mysterious books ever written, the Book of Enoch is, in some respects, the most notable extant apocalyptic work outside the canonical Scriptures. This edition contains the complete collection of texts associated to the book of Enoch, as well as profound commentary and guides by renowned scholar R.H. Charles. It is an ancient Jewish religious work, ascribed by tradition to Enoch, the great-grandfather of Noah, although modern scholars estimate the older sections (mainly in the Book of the Watchers) to date from about 300 BC, and the latest part (Book of Parables) probably to the first century BC. It contains (among many other subjects) the very dramatic description of how a group of "Angels", also called "watchers", sinned with their proteges, the humans, and were punished by God. The interest on the book has risen lately, as the story it presents seems to agree with other traditions, about the existence of a "race of watchers", responsible for Earth and its development.

It's a religious book by one of the pre-Christian, Hebrew visionaries. Your choices leave a lot to be

desired. I chose good for the writing because it is translated from an ancient language to a language used by the Coptics in Egypt and then into English. Violence occurs when the angels of God destroy evil. But this is not violence in the modern meanings, I think. The Crucifixion of Christ is violent, graphic too. Maybe you should not try to rate books like this. You are not up to it.

Like the book of the Meccabees, I believe that the book of Enoch is also a must have, because it would complete historical information that you wouldn't have with just the biblical versions that we have now!

"The Book of Enoch" is an added biblical addition that is well appreciated at least in part by me. It elaborates more on the Nephilim in the beginning. Something that I was always intrigued by from the Bible's book of Genesis. Enoch is another character from the bible that was shown favor by GOD and was taken straight to heaven but the bible spoke so little of him. This book let you know the man Enoch is and of his fascinating visions shown to him.

Don't like the cover. This is a small slim book. The text is easy to read. Should really read the bible and apocrypha and understand it before u read this. People say this is not in the bible but it is. U can easily look up enoch in the bible and find the verses he shows up in.

Astounding disclosure by the author, however very little biblical scripture with the exception of Genesis chapter 4, 5, 6. Great reading, however a myth and mystery in evidence of the fallen angels who brought forth the offspring of giants, when they found the daughters of men to be attractive. Still researching for qualification...

an excellent addition to my library, i plan to follow up and get more of his works and titles. excellent author, great content and physically the book is of great quality.

For years I have been reading the Christian bible but could not understand a lot of things, but after reading the book of Enoch, and although I haven't finish reading it, I have now come to have a better understanding of the scriptures especially in the book of Genesis. What surprises me most is the fact, that how early bible translators left out a lot of very important information that came direct from Jehovah God. No wonder there is so many different Christian denominations in the world today and so much confusion.

This is a really good book to me it bring the bible to life and some of the missing thing and question that are in the bible together a must read if you are a seeker of truth, But honestly I prefer the Ken John version over this one to me his is a little bit better the same story but some thing are put together differently.
