# My Mom Thinks She's My Volleyball Coach, But She's Not!

## Synopsis

For all of us that love watching volleyball (or other sports our children are involved in) but have a tendency to get a little too involved in the game. For those of us that cross the line between supportive fan and obnoxious spectator, this book will serve as a gentle and hilarious reminder that coaches coach, officials officiate, players play, and parents parent (cheer, hug, encourage, help, transport, feed). Written by an experienced volleyball mom and USA Volleyball, this book is designed to make the volleyball court a much more enjoyable place for us all to be.

GREAT book for parents of volleyball players! Explains well a parents role in the sport. CUTE READ!

This book is fabulous! As a coach of 6-12 volleyball teams, I have shared this book every season with parents. It's absolutely a fantastic illustration of the behaviors that make all coaches (and players) cringe, and definitely makes parents think twice about how they appear to others - especially their kids! Would strongly recommend to ALL coaches out there!

A must read for all ages involved in volleyball!

Cute and all too true.

This was listed as a young adult book and I bought it for my 14 granddaughter who plays volleyball. It is not a young adult book and way too babyish for her. This is probably more of the 8-10 age range.

Awesome book! Every coach should be able to hand a copy out before each season.

Perfect for my first grader who is obsessed with volleyball.

Met expectation.
