Wildcatters: The True Story Of How Conspiracy, Greed, And The IRS Almost Destroyed A Legendary Texas Oil Family

Synopsis

This true story of greed, corruption, and scandal follows one of the most famous oil families in Texas. Moncrief reveals how petty office politics in his family's business led to a frame-up, explores the effects from the subsequent IRS raid, and details the years-long trial that ended with the Moncrief family absolved of all charges.

Customer Reviews

If you're unaware of the oil industry and how it's run outside the halls of Exxon, Mobil, etc., this book will be an eye-opener for you. It's how the oil business really works, including an historical perspective, and the greed that inevitably tears families apart. Well written with good timing of events. Little details provide real incite into the hearts of the characters. Very enjoyable, despite the ending of a family split apart by too much money.

Very interesting for this Ft. Worth native. Recognized many names while reading.

As a Texas lawyer I loved to read all the legal maneuvering surrounding this fight. It's clearly a one-sided version of the events, but it is a great read.

I loved this book. I would recommend it to everyone. A great read.

Greed can destroy. This is why "Thy shall not covet" is a commandment. This book is well written, informative and proves that money, greed and lust is a motivator, even for the wrong reasons. My congratulations to Mr. Charlie Moncrief of Fort Worth, Texas for sharing this story and for being a man of conviction.

Told with the kind of intimate details that only a true Texas Oilman would be willing to divulge. The flair for Southern Colloquialisms and just shoot from the hip honesty is refreshing.

new condition

This item was given as a gift. Before giving it the preface and first few pages were read and it seems to be well written.
