good

Excellent map, wish they'd come out with an updated edition. Indispensable.

very expensive for what it is. but prefer to see map on paper. I work in the area new streets aren't in it because it's so old.

Quality publication that's disappearing with the spread of GPS on so many devices.

just what i wanted.wish they would tell you when they print new editions.i use it every day.. helps to laminate each page and use a highlighter to mark your stops as a delivery driver then wipe clean and start over for next day

In this era of google maps, mapquest and GPSs it is getting harder to find the old books of maps.

Found this one - designated as used and in good condition and it was - could hardly tell it wasn't new. Shipped and delivered quickly.

In this day of GPS devices and Google map, it is still very useful to an overview when you are in the car.

I'm a truck driver and this is the atlas that everyone I work with uses...simply the best. Great detail, easy to read, easy to understand.
