Customer Reviews

This is the Instructors Manuel and Student Book

Great book for what it cost.

I was pleased with the condition of this book. I was also very pleased at how quickly it was sent. I am looking forward to my BLS/CPR class next semester. Thank you for your services. D :)

This book goes along with the classroom training and video which is required for most CPR licensing. However, this book is very informative to learn basic techniques on your own even if you do not plan on taking the licensing test. This is a must-have for any healthcare professional or anyone with children and elderly friends & family.
