Customer Reviews

I really enjoyed reading Erica's book. I am into most things sci-fi, so this really hit the spot. The

descriptions of the alien planet and its inhabitants were amazing. This author has a great talent for story telling. She made me feel as though I was there.

I really enjoyed this book. It kept me on the edge of my seat wanting to see what would happen next. I highly recommend it not only to young readers but adults as well.

Thoroughly enjoyed reading this book and I think all teenagers would enjoy this book although I am not a teenager.. Think it would make a great movie too. Highly recommend this.

Interesting but more appropriate for teen girls than adults.

What a fun Sci Fi story. Directed to a teenage audience it really hits the mark. Rayan is a teenage girl living a pretty normal life in what's known as Tornado Alley in Oklahoma. With one difference. It turns out her boyfriend Talon is an alien, the kind from another planet. He came to earth with his family to escape oppression on his home world. Unfortunately, the ruler of his planet sends a force to capture humans, and Talon ends up along for the ride. An exciting, scary, resourceful and rewarding ride. There were a couple of spots that felt stilted, but the rest was good enough that those were easily and quickly forgotten. Disclosure: I was given a free copy of the book for an honest review. I honestly strongly recommend this book to anyone with teens -- especially if they're in to science fiction story all or into dystopian fiction.

What a great book, although it's for young adults I really enjoyed reading it.....something different for me.A story that prods your imagination, strong colourful characters with loyalty and friendship, peppered with a touch of violence for a good cause!!A well written book by Erica Collins, that deserves a Five Star ratingI was gifted a copy of this book for an honest review, and this is my honest opinion

I really enjoyed this book. It was different than what I expected, but in a good way. It's amazing that I can read a book and am transported back to high school. I'm not sure what I would do if someone told me they were an alien? What if you have to choose between living on earth without him or going to his home planet? I think you will enjoy this book no matter your age, and the nice thing is you can share with your kids and grandkids.

I was not expecting this when I started this book. I felt like I was reading a journal while reading this. Very well done! I thoroughly enjoyed this story. I read it in 2 days. I simply couldn't put it down.
