Exit Here.

Synopsis

Exit here. Enter apathy. Jason Myers pushes the limits of teen fiction with this tale of love, addiction, and wrong choices. Travis is back from college for the summer, and he's just starting to settle in to the usual pattern at home: drinking, drugging, watching porn, and hooking up. But Travis isn't settling in like he used to; something isn't right. Maybe it's that deadly debauch in Hawaii, the memories of which Travis can't quite shake. Maybe it's Laura, Travis's ex, who reappears on the scene after a messy breakup and seems to want to get together -- or not. Or maybe it's his suddenly sensing how empty and messed up his life is, and wanting out. But once you're at the party, it's tough to leave...

Book Information

Paperback: 464 pages

Publisher: Simon Pulse; English Language edition (May 22, 2007)

Customer Reviews

Jason Myers is the author of five teen novels, including his debut, *Exit Here.*, which became a cult classic. He lives in San Francisco, California. Find him online at JasonMyersAuthor.com or follow him on Twitter at [@JasonMyersBooks](https://twitter.com/JasonMyersBooks).

This was a hard read for me. This is what I picked up from reading it: 1. I believe it could have been 100 pages shorter. 2. The twist at the end, rather the multiple turns and conclusions the author takes make the novel worth the read. 3. I really despised the protagonist. This is a me, as a reader, issue and it effected how I read the text. 4. I kept finding illusions to *Catcher in the Rye* - rather where this novel could have gone in a different direction and meant more. Do I recommend it, no. Was it worth

finishing, yes. That is all.

I didn't live an Exit Here. life but someone close to me did. This book connects with a place in my heart that has never been seen before. I am selfish with this novel because it peeled back my layers and made me realize how decisions so greatly form our future. I placed my copy on shelf and from time on time I will glance at it and think about how it changed my life perception.

Jason Myers is s great author I've read this book multiple times, and have purchased this book twice but gave my first copy away so I bought another one. I'm a fan of all his books but this is by far my favorite!

The style of writing will take some getting used to b/c there are no quotation marks...that means you don't know if the narrator is thinking or speaking unless another character responds to him. There are a lot of drugs in this book as well.

I left this sitting at an airport terminal when I was finished with it. Wasn't really sure what to think at the end. I hated the first half and then felt some compulsion to read all the way through. By the end I had no real feelings about it at all.

This is possibly the rawest book I've come across since Chad Kultgen's "The Average American Male". It's an accurate description of hipster life in the midwest and keeps you on the edge of your seat. Looking forward to reading more of Myers' work.

Probably one of my favorite books ever. Originally read it back about 3 years ago and lent my copy to someone who lost it. Just recently bought another copy so i could read it over again. Since originally reading it I've been a avid Jason Myers fan and have read all of his books. I recommend this to adults as well as older teens because it's good enough to keep their attention but too mature for younger children.

Couldn't be happier with this purchase.
