Customer Reviews

Love these books, bought one through Kindle and was a refreshing read, all the books are straight to the point with out some long drawn out B.S. on Hypnosis like every other writer does. It's not based in being mysticism much like the crap that's out there. I do have to admit the covers are a little corny and I questioned my first purchase, I am glad I just did it well worth it

i have written one review for all 8 of the author's books. in order to avoid redundancy, i am only going to post my review on the very first book's page and leave this note as a link on the others. if you're going to buy the books, buy them all. you really do need to read them all to make sense of the information, even though the author insists the books are stand-alone. no, they are not. what i have written above can help you fit the information into its proper order, and from there learning to do hypnotism with only this series is very much possible if you PRACTICE A LOT and follow the instructions the author gives you in the series. 4 stars. would be 5, but my gripes are such that i spent an inordinate amount of time rereading the info and mindmapping it in order to make full sense of it. the author writes a LOT, and practical hypnosis requires simple understanding and quick execution, which is defeated by the series' verbosity. for the rest of my review, see the very first book

in the series.

be prepared to be hypnotised INTO buying the NEXT book!!

I bought Powerful hypnosis, Hypnotic Language, Forbidden hypnotic secrets and how to hypnotize anyone all for my husband. He was very happy with these. He is a ND and used to hypnotize his patients in Holland. When coming to America, he stopped practice but is now reading into it again. These were all good reads and awesome for his collection.

I am really digging the series and I am already two additional titles of his at the same time. The only thing that I was feeling a little bit confused about that I wish was explained in more detail is the steps. Like step 1 is induction step two deeper step 3 suggestion and step 4 awakening or can you just do long induction, no deepener suggestion and reawakening? I guess feel a bit confused about when exactly should the suggestion be put out there and maybe give some many test suggestions is what I was thinking.....just my two cents

Forbidden Hypnotic Secrets is the most comprehensive list of all the hypnotic techniques ever put together. It is very funny and hilarious, written in very tasteful style. It avoids all kinds of technical jargon. The way every technique is explained makes it easy to immediately put into practice. Every hypnotist or hypnotherapist, whatever, they call themselves, will benefit from this book. Because of its style, humour, playfulness, and honest presentation, it is very easy to remember most of the techniques. Saf
