Customer Reviews

Book by Milton T. Astroff, James R. Abbey

It was cheaper to buy here than at my school local bookstore. So overall I am happy with the purchase of this book that I need for one of my College classes.

The book was in perfection condition no CD was included from the previous owner. The person I bought it from was terrible. took two weeks to ship it then shipped it a company that never comes my way so it took longer for it to show up and I needed it for a class. I think the book itself was really helpful even if I didn't need it for class.

great condition

Book was in excellent condition

This book normally comes with a test sheet in the back for a certificate that many teachers like to incorporate into their classes. I bought the book new expecting this sheet to be included and it wasn't. If you need the sheet, don't buy from here.

This text was perfect for our Event Planning university course! It covers all aspects of hosting a convention and has useful side-bar stories of real-life situations.

too much
