It is truly rare for a book to be a real classic. But that certainly is the case with Anodea Judith's

Wheels of Life. When it was first published there was not much in-depth information about the chakras available in the West. But that changed with *Wheels of Life*. People responded by buying over 125,000 copies of this wonderful book. Now, *Wheels of Life* has been revised and expanded to meet the times and keep this book the leading title on the subject. The main focus of *Wheels of Life* is an in-depth examination of each chakra. But it doesn't stop there, for above all, this book is practical. You will learn what each chakra can do for you and how you can clear it, balance it, and strengthen it to help you achieve optimum health, improved spirituality, and strengthening of psychic powers. Other topics look at the chakras as a group so you can see how they interact. You will learn how chakras function in relationships. New in this edition is an entire chapter on how to foster healthy chakras in children. Together, the seven chakras form a profound formula for wholeness that integrates mind, body, and spirit. From liberating our spirits to manifesting our dreams, the chakras are the very wheels that carry us through life.

A great book for beginners and seasoned spirituals. There is an in-depth chapter for each chakra with exercises to go with each one. I found it informative and helpful, if you'd like to learn about chakras or further your understanding this book is definitely one to add to your collection.

I haven't finished the book yet. The book is very interesting. Not having been exposed to Eastern teachings with my friends years ago, this is fascinating information. It makes a lot of sense. I started by reading bits and pieces throughout the book. Now I'm reading sequentially but only gotten through chapter 2. I recommend it for getting an overall concept of one's Being. It offers a logical progression of self- and other-awareness. Very well written thorough, though not tedious, explanations. A good read.

We started a yoga book club at the studio I teach at and this was a fantastic book! We all learned so much while receiving so much inspiration for our classes. Its relatable and easy to read from for both the beginner and the "novice". I appreciate how the author gives you information from both a scientific and spiritual aspect. You can take and use as little or as much of the information as you want to. Highly recommend this book

One of my favorite books on energy work. A MUST for energy workers or those searching higher enlightenment.
