# **Wolf Coloring Book: An Adult Coloring Book Of Wolves Featuring 40 Wolf Designs In Various Styles (Animal Coloring Books For Adults) (Volume 1)**

## **Synopsis**

Get fantastic value for money with this huge Wolf Coloring Book! These expertly illustrated wolf designs will provide hour upon hour of entertainment! This wolf coloring book contains 40 single sided coloring pages. This allows you to remove each page for framing or to use as coloring reference in a portfolio for example. This also helps reduce bleed through onto the other designs even if you are using markers, making this book suitable for everything from coloring pencils through to marker pens. The wolf designs contained within this fantastic book are created by various artists, each handpicked by us here at Adult Coloring World to ensure fantastic quality throughout. We know that sometimes you will buy a book after being impressed initially by an amazing design on the cover, only to be disappointed with the books contents when you open it. Well we make sure this never happens with any of our books and we can assure you that all of the designs inside are high quality from start to finish. This adult coloring book of wolves contains a wide variety of imagery. The designs you will find inside also range from very easy simplistic designs right through to the more challenging and complicated, so there will be something to suit all tastes. If you love wolves, then you are sure to love this adult coloring book too.

Okay, first off, I've been having fun with the book. (see pictures 1 and 8) I just think it could be a lot better. I included picture examples so you can see what I mean. Some of the pictures are just line-art

of actual wolves' heads, like you would see in a black-and-white nature book. All the fur texture is there, but it's not a design. You can just shade it, or say, "I want this wolf to be black" and go from there. (picture 6) There are also many wolves wearing Indian headdresses. I swear half of them are wearing feathers in their fur. One or two pictures were kind of insulting for an "adult coloring book" (picture 2). Some of the simpler designs (picture 7) still looked simple but adult. That's good, because sometimes I like to do a page that doesn't take me 2 hours. Oh, and then there's one that I have NO idea what it's supposed to be (picture 5). Seriously? As for the quality of the book, it's so-so. My comparison comes from Dover and Creative Haven coloring books. The pages seem to be the same thickness as most printer paper. They are one-sided, so I finally got to try out my markers that bleed through (can't afford artist markers right now). If you have bionic close-up vision like me, you can see that the printed lines aren't smooth, but are a little "jagged" looking and were clearly printed out on a not very sophisticated printer. A bunch of them have fairly obvious "stacking", so there are little tiny spaces between some black sections. Or they have a tiny black line where the edges of the artwork was centered on the page. I'm a freshly-graduated graphic designer and I wouldn't let a company print a book with such easily-fixed mistakes. Bottom line: Try to find it in a store and flip through it first. Or, if you're an adult who has a kid who likes coloring wolves too, this would be a good book to share because you could tear out the easy pages and let them color with you. Unfortunately, the pages aren't perforated, so best of luck with that approach. Maybe make a few photocopies for personal use or switch off.

When I saw this coloring book, I knew my daughter would love it. She is my wolf girl. She adores wolves. This coloring book offers some easy to color pages and some not so easy. I like that she spends hours coloring the wolves. My daughter is 10 years old and this book is perfect for her. She is busy coloring, which means she is not on her IPad or playing video games. She is using her imagination and creativity coloring. She is very happy with this coloring book. The detail coloring is a wonderful thing. I even get to color with my daughter and it's so relaxing and calming. So now we will have wolves hanging all over. I jumped on the chance to purchase this coloring book. I was searching for a wolf coloring book for her and could not find one in any stores. It is the best place to find anything. I would recommend this coloring book to all the wolf lovers out there.

I'm not really excited by the outlandish drawings. They just look .... goofy. More kid like than "adult". Haven't used product. Haven't seen any I like enough to spend time "coloring".

Many of the wolves are poorly drawn..

I think my wolf fanatic granddaughter is going to love finding this in her Easter basket. Pretty pictures - I'd order a second one but the other wolf child is only 4 and the pictures are very elaborate. Still, very nice for the little girls I love who have both decided at young ages that wolves are their spirit animal.

I bought each of my family members a themed coloring book for the holidays this past year. My father loves wolves and regaling us with stories of how he once was chased by a werewolf (he loves to embellish everything), so I was thrilled to find this coloring book for him! I immediately ordered it and within a few days it arrived. I will say that the paper isn't quite the same quality as some of the other coloring books I purchased and there are fewer pictures in this book than in many of the others, but, overall, I'm happy with it. It has wolves throughout--some of the pictures are more detailed and better drawn than others--but I doubt my father will color more than a few of them anyway. And depending on what you're looking for, having different levels of skill difficulty could be a positive or a negative feature. My dad liked the gift and I'm happy I purchased it. Sometimes the theme matters more than the full quality.

My wife loves to color. It's her time to disconnect from the world. I got this coloring book along with about 5 other for her at Christmas. She loves it! The pictures are detailed and take awhile to complete. She doesn't like the ones that are too easy and doesn't take long to finish. If you like to color or know someone who does then I recommend this coloring book.

Bought as a gift for step-daughter who likes wolves. Nicely bound and good paper. Some of the drawings are hard for her to color since they are more like sketches. She enjoys it though.
