The 37th Parallel: The Secret Truth Behind America's UFO Highway

Synopsis

This real-life The X-Files and Close Encounters of the Third Kind tells the true story of a computer programmer who tracks paranormal events along a 3,000-mile stretch through the heart of America and is drawn deeper and deeper into a vast conspiracy. Like Agent Mulder of The X-Files, computer programmer and sheriff's deputy Zukowski is obsessed with tracking down UFO reports in Colorado. He takes the family with him on weekend trips to look for evidence of aliens. But this innocent hobby takes on a sinister urgency when Zukowski learns of mutilated livestock and sees the bodies of dead horses and cattle - whose exsanguination is inexplicable by any known human or animal means. Along an expanse of land stretching across the southern borders of Utah, Colorado, and Kansas, Zukowski discovers multiple bizarre incidences of mutilations and suddenly realizes that they cluster around the 37th parallel, or "UFO Highway". So begins an extraordinary and fascinating journey from El Paso and Rush, Colorado, to a mysterious space studies company and MUFON; from Roswell and Area 51 to the Pentagon and beyond; to underground secret military caverns and Indian sacred sites; beneath strange, unexplained lights in the sky; and into corporations that obstruct and try to take over investigations. Inspiring and terrifying, this true story will keep you up at night, staring at the sky and wondering if we really are alone and what could happen next.

Book Information

Audible Audio Edition

Listening Length: 6 hours 37 minutes

#224 in Books > Religion & Spirituality > Occult & Paranormal > Unexplained Mysteries
#427 in Books > Biographies & Memoirs > Professionals & Academics > Scientists

Customer Reviews

I gave this book 5 Stars because I'm Chuck Zukowski, the investigator in the book. First, I receive

no profits from the book, but what I do receive is, knowing people are reading about real events that have affected mine and my family's life. (Over 30 years.) Ben Mezrich has a phenomenal writing ability putting information out to the public in which everyone can enjoy, and it was an honor working with him. While you're reading this book, you'll learn a lot about UFOlogy, from "Balls of Light" to "Animal Mutilations" which are still occurring, as recent as late August, 2016. These events are real! Some comments I've read are from people who don't like the ending of the book, some people want to see a conclusion, or conclusive evidence Aliens exist, well it's a lot more complicated than that. We live in a world where information is being hidden from the public, and some people seem to disappear when getting too close, so the only way to combat that, is to get as much information as we can out to the public; and this book does that. Read the book, decide for yourselves, and if you have any questions, simply email me... Thank you...

It was a five star until the last page - why bother even putting it in the book if it is heavily redacted? I'd really like to know why he ended the book in that manner.

Somewhat interesting story of a passionate ufo investigator, but does not lead to any revelations by the investigator that adds to solving any of the intricacies of the phenomena's that he's researching. This book seems to end where I would like it to begin and the "redactions"????

So what happened? This book ended abruptly without explanation or further dialogue. What is the blackened out parts supposed to signify? This wasn't fair to the reader. Poorly done

Awesome read! Ben writes in a wonderful and entertaining way on a subject that really is tough to write about and yet be taken seriously.

Wow! I would highly recommend this book even to the skeptic. I found it really interesting and already loaned it to a friend to read. Easy and engaging.

The book was full of short chapters. I'm sure they were true incidents, but mostly cattle killings. Very little on UFOs themselves.

Intrigue and a line of investigation that does not see a lot of publicity. Mr. Mezrich leads us down a road we mainly don't want to acknowledge and are somewhat scared to learn the answers to. A

terrific read, highly recommended if you dare.
