Health Professional As Educator: Principles Of Teaching And Learning

Synopsis

Health Professional as Educator: Principles of Teaching and Learning is included in the 2015 edition of the essential collection of Doody's Core Titles. Health Professional as Educator: Principles of Teaching and Learning focuses on the role of the health professional as an educator of patients, clients, staff, and students in both clinical and classroom settings. Written by renowned educators and authors from a wide range of health backgrounds, this comprehensive text covers teaching and learning techniques as well as strategies, learning styles, and teaching plans. Students will learn to effectively educate patients, students, and colleagues throughout the course of their careers. Health Professional as Educator includes information not found in other health education textbooks, such as adult literacy, teaching and learning of motor skills, and the impact of learner characteristics on the learning process. Examples related to healthcare practice are woven throughout the text and case studies featured in each chapter demonstrate how to apply theory to practice.

Customer Reviews

Book was received as specified and on time. Thank you for shipping it quickly. This is a GREAT book if you will be learning to teach others. It has specific instructions of how people learn, how to teach, how to create patient education materials, and how to evaluate it. A must have and one that you will keep to refer to for the rest of your practice!

Very informative literature! Exactly what I needed for my final nursing class ;) !

Good purchase

This book is basic, but has the examples that will assist in developing the components of a thorough curriculum. This text is required for a class I am taking and provides the basic information in a clear concise manner.

Very good book.

Great book for school!

Thanks for the help finding what I needed

As discribed, fast service, thanks
