Customer Reviews

"Chock full of colorful maps, photos and infographics designed to engage little ones with the world before taking a big trip overseas or just over the border." (Kidventurous)

I was expecting a book about the culture, people, and geography of the different countries, but the book's contents were more along the lines of what you would find in a trivia game or fun facts. It is still an interesting book, just not what I thought I was getting when I ordered it.

The book has texts that are often very biased, unrepresentative and alluding to an underline opinion. It is with a great surprise to us, reading the book to our children, that such a text is portrayed by lonely planet. The anecdotal information is by far not at a high level.

I travel all over the world and even if this is geared more towards children, I still have learned alot and in my 40's. Love the pictures

My 9 year old son absolutely loves this book. It has a page for each country in the world. I would give the book 5 stars based upon how much he loves it. However, the book is not very durable. The pages separated from the binding about a month after we received the book.

This is a great book. I bought it for my 3 year old nieces who were to young for it but believe they will grow into it. They are excited to look at the pictures as we read the book to them.

This book is better than I expected! It lists every country- no matter how small! Visually pleasing--My daughter will love it!

she love her book

I bought this for my 13yr old cousin. He loves facts about different countries and places. I was

worried about it being too childish for him but he absolutely loved it. He still brings it everywhere and reads facts out of it!
